## SECTION I

### INTRODUCTION:

The North Dakota Office of State Tax Commissioner (Commissioner) offers Electronic Data Interchange (EDI) as an option for filing oil and gas severance tax reports electronically. This manual is designed to provide the necessary information needed to file the T-12 Oil Report and T-13 Gas Report using the EDI format. The manual and all applicable information is available on the Commissioner's home page at [www.state.nd.us/taxdpt](http://www.state.nd.us/taxdpt), or by contacting the Oil and Gas Tax Section.

### ELECTRONIC FILING STANDARDS:

The Commissioner is adhering to the American Petroleum Institute's (API) Petroleum Industry Data Exchange (PIDX) Electronic Filing of Tax Return Data convention of ANSI ASC X12 Electronic Filing Standards. Use of this convention provides consistency in the method of filing tax returns to North Dakota and to other states. This EDI application uses ASC X12 Version Release 004010 of the Transaction Set 813, Electronic Filing of Tax Return Data, and the Transaction Set 997, Functional Acknowledgement. The X12 Standards Dictionary, Version Release 004010, can be obtained through Data Interchange Standards Association (DISA).

### FILING OPTIONS:

Electronic returns are filed with the Commissioner by transmitting the electronic file using one of the following options:

1. Value Added Network (VAN) – an electronic mailbox service provider. The Commissioner utilizes the VAN services of AT&T Easylink. You are not required to use this VAN if the one your company uses has interconnect capabilities.
2. E-mail file attachment. Your electronic return can be filed by attaching it to an e-mail message and submitting it to [oiltax@state.nd.us](mailto:oiltax@state.nd.us).

The Commissioner is considering the use of the Internet to provide file transfers utilizing a secured FTP (file transfer protocol) server, which serves the function of an electronic mailbox. You will be advised if this option becomes available.

### REGISTRATION:

A Registration Application for Electronic Filing must be completed and submitted before you can electronically file a return with the Commissioner. An authorized agent of the company must sign the application. The signature of the agent will be deemed to be the signature appearing on the electronic return. A Registration Application can be obtained on the Commissioner's home page or by contacting the Oil and Gas Tax Section.

### TESTING:

Testing is required, by all parties that want to file electronically, before the Commissioner will accept their electronic returns. The testing procedures will insure that the file transmission functions perform properly and that the files are received in the appropriate format. A Trading Partner Profile must be completed before testing can be conducted.

### HOW TO GET STARTED:

Before the Commissioner will accept electronic returns, the following steps must be completed:

1. Contact the Commissioner to get specifications and registration information. This manual should include all necessary information, but you are encouraged to contact the Commissioner if you have questions. This manual is also available on the Commissioner's web site.
2. Determine which method you prefer for transmitting your electronic returns.
3. Complete the Trading Partner Profile and submit it to the Commissioner.
4. Contact the Commissioner to schedule testing of the electronic filing procedures.
5. Following successful testing, as determined by the Commissioner, a Registration Application for Electronic Filing must be submitted.
6. Upon receipt of the application, the Commissioner will activate you to production status and begin accepting your electronic returns.

TRANSACTION SET TABLES \* 813

**813 ELECTRONIC FILING OF TAX RETURN DATA****Functional Group = TF**

This Draft Standard for Trial Use contains the format and establishes the data contents of the Electronic Filing of Tax Return Data Transaction Set (813) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used by tax filers to electronically file tax returns with a federal, state, or local taxing authority and which may initiate payments related to the tax return.

## Attribute Conventions

Attribute	Definition
Data Element Type	<p>Nn - Numeric - Numeric type data element is symbolized by the two-position representation (Nn). N indicates a numeric, and n indicates the decimal places to the right of a fixed, implied decimal point. N0 (N zero) is a numeric with no decimal places.</p> <p>R - Decimal (real) - The decimal point is optional for integer values, but is required for fractional values. For negative values the leading minus (-) sign is used. Absence of this sign indicates a positive value. The plus (+) sign should not be transmitted.</p> <p>ID - Identifier - An identifier data element must always contain a value from a predefined list of values that is maintained by ASC X12 or by other bodies that are recognized by ASC X12.</p> <p>AN - String - A string (Alphanumeric) is a sequence of any character from the basic or extended character sets. It must contain at least one non-space character. The significant characters must be left justified. Leading spaces, if any, are assumed to be significant. Trailing spaces should be suppressed.</p> <p>DT - Date - Format for the date type is CCYYMMDD. CC is the first two digits of the year (19-20), YY is the last two digits of the year (00-99), MM is the numeric value of the month (01-12), and DD is the day (01-31).</p> <p>TM - Time - Format for the time is HHMMSS, expressed in 24-hour clock format. HH is the numeric value for hour (00-23), MM for minute (00-59), and SS for second (00-59).</p>
Requirement Designator	<p>Defines how the data element is used in the segment.</p> <p>M - Mandatory data element - This element is required to appear in the segment.</p> <p>O - Optional data element - The appearance of the data element is at the option of the sending party or is based on a mutual agreement of the interchange parties.</p> <p>X - Relational data element - Relational conditions may exist between two or more data elements. If one is present, the other(s) are required. The relational condition is displayed under the Syntax Notes of the X12 Standards.</p>
Data Element Length	The number of character positions assigned to the data element. Example: Data element length of 2/10. You must have at least 2 characters, but no more than 10 characters for this element (minimum of 2 / maximum of 10).

## SECTION IV

### FILING INSTRUCTIONS FOR T-12 OIL REPORT AND T-13 GAS REPORT:

1. You will not have to report any entries with a zero. It will be assumed that the entry is zero if the TIA segment with the 8XXX code is not reported.
2. Decimals are required if the number is a real number - i.e., 2023.23 should be reported as it looks. If the number is a whole number, you need not report the decimal nor the two zeroes to the right of the decimal - i.e., 2034.00 should be reported as 2034 (no decimal).
3. For the API Number, you may report either the API number for the well, or the corresponding Group Number. Use the number that would have been reported on the paper tax forms.
4. The following entries are mandatory (**do not report a well that had no purchases during the reporting period**):
  - a. Both oil and gas tax forms
    - (1) Federal ID number
    - (2) Production Period
    - (3) Form type (Including original/amended indicator)
    - (4) API/Group numbers
    - (5) Well name
    - (6) Pool code
    - (7) Producer/Purchaser Indicator
    - (8) Other Party Federal Identification Number
  - b. T-12 Oil Report
    - (1) If there is a purchase, the following are mandatory:
      - (a) Barrels purchased/sold
      - (b) Value of oil purchased/sold
      - (c) Value of exempt government royalties (if applicable)
      - (d) Net taxable value
      - (e) Production tax due
      - (f) Production tax previously paid (if applicable)
      - (g) Production tax paid by others (if applicable)
      - (h) Production tax paid with return (if applicable)
      - (i) Well code
      - (j) Extraction tax due (if applicable)
      - (k) Extraction tax previously paid (if applicable)
      - (l) Extraction tax paid by others (if applicable)
      - (m) Extraction tax paid with return (if applicable)
      - (n) Oil gravity
      - (o) Posting code (Code list provided by Tax Commissioner)
      - (p) Additional value (if applicable)
      - (q) Transportation deduction (if applicable)
      - (r) Other deductions (if applicable)
      - (s) Condensate indicator (if applicable)
  - c. T-13 Gas Report
    - (1) If there is a purchase, the following is mandatory:
      - (a) Natural gas delivered/sold
      - (b) Natural gas returned to lease
      - (c) Residue returned to lease
      - (d) Liquids returned to lease
      - (e) Condensate reported as oil
      - (f) Delivered/sold volume
      - (g) Exempt royalty percentage (if applicable)
      - (h) Exempt royalty volume
      - (i) Taxable volume
      - (j) Tax due
      - (k) Tax previously paid
      - (l) Tax paid with return
